Summary: A relatively short poem I have written describing H.I.V.E. in verse. All credit goes to Mark Walden.

## HIVE Alphabet

**\*\*H.I.V.E. Alphabet Poem\*\***

A is for animus, an organic, black goo.

B is for the bad guys, much like Overlord and crew.

C is for Colonel Francisco, who runs through many drills.

D is for Lucy Dexter, whom Overlord kills.

Evil takes E, the model value at H.I.V.E.

F is for Franz, requiring lots of food to stay alive.

G is for grappler, equipment everyone uses.

H is for H.I.V.E. and its mind, which it constantly loses.

Tom and Penny are Initiates, representing letter I.

J is for Jason Drake, and in the fourth book he dies.

K is for katanas, as in Raven's trusty blades.

L is for Laura, who codes both night and day.

M goes to Nero, but his friends call him Max,

N is for Nigel, who made a plant that ate people for snacks.

O is for our favorite young clone, and Otto is his name.

Professor Pike has two P's, and technology is his game.

Q is for quiet, which is something H.I.V.E. lacks.

R is for Raven, notorious for her lethal attacks.

S is for Shelby, who can open any conventional door.

T is for Tabitha Leon, who doesn't want to be a cat anymore.

U is for clean underwear, which comes through the closets each morn.

V is for Verity, whose vengeance for Constance she has sworn.

W covers Wing Fanchu, the ninja who always remains calm.

X is for Xiu Mei, who happens to be Wing's mom.

Y stands for years, there are six spent at H.I.V.E.

Z is for Zero Hour, where they save the world's sorry behind.

There are others, of course, that I can't seem to fit,

Diabolus Darkdoom, the Disciples, and more, if you get my drift.

There are also people like Cypher, the Dreadnought, the Furans, and Violet to mention,

But as I only have 26 letters they all face indefinite suspension.

And so it is with my greatest regret

That we come to the end of our evil alphabet.

End  
file.
